

# Fortune Teller Origami

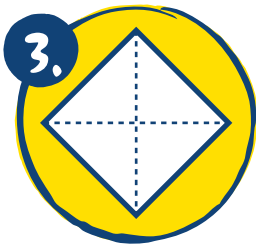

GoodNites<sup>®</sup>  
Brand

1. Print out and trim the origami template. Then fold corner to corner, making a triangle.

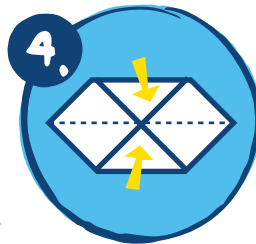

2. Fold the two opposite ends of the triangle together, making a smaller triangle.

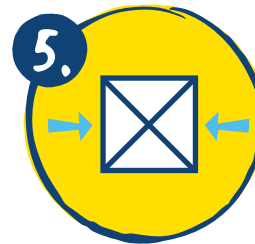

3. Unfold all the folds, and open up the paper to a square.

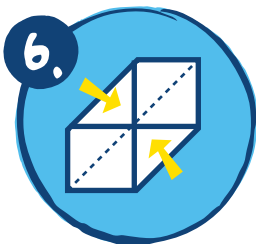

Now, make sure the printed side is face down.

4. Fold a corner into the central point. Repeat the same steps with the opposite corner.

5. Repeat the steps with the other two corners. You will have a square.

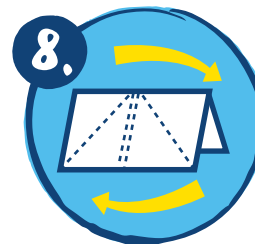

6. Flip the paper over.

Fold a corner over to the center. Repeat the same step with the opposite corner.

7. Fold over the two remaining corners. You will end up with a smaller square.

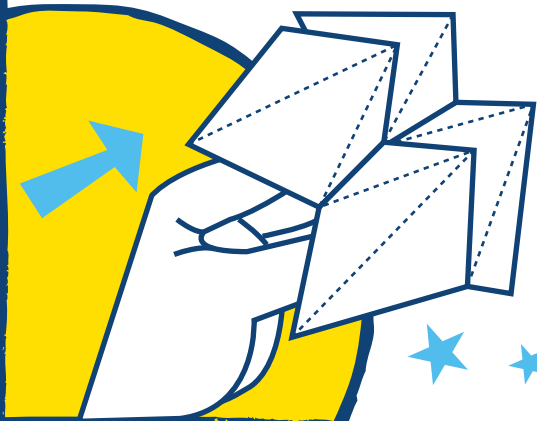

8. Fold the square in half. Unfold and fold in half the other way.

9. Unfold and pull the four ends together, making a diamond-like shape. Pick up each of the four square flaps, and stick your fingers inside. You can then move the four parts around to read your good fortune!

## How it works:

- Hold the fortune teller and ask your child to choose one of the colors shown.
- Spell out the chosen color by opening and closing the fortune teller, and stop.
- Have your child choose one of the numbers that is shown. Count out that number by opening and closing the fortune teller, and stop.
- Again, have your child choose a number, and repeat step C.
- Have your child choose one last number. Then open the flap beneath that number and read your child's bedtime fortune!
